

Ambic DipMizer™

ADM/101

Properties

Sleeve: Thermoplastic Elastomer

Brush ring: Polypropylene

Brush: Black Polypropylene & Stainless steel

Dimensions: 17.5 x 3.5 x 25 cm

Net Weight: 42 g

Features

- Adds a 'sweeping' step to remove excess chemical from the teat.
- Designed with special bristles that remove just enough chemical so that the teat is well protected.
- Reduces the amount of teat dip used per cow.
- The brush attachment can be removed for cleaning and sanitisation to reduce the risk of contamination.
- Can be used with all non-foaming Ambic Dip Cups.
- Available in a range of colours for pre- and post- dipping applications.
- Available as single pack or pack of three (ADM/103).
- Spare brushes can be purchased separately.

Country of Manufacture: GB
