

EasiDipper™ Extension Kit with Lever Applicator AED/014 (AED/4004 & AED/4006)

Properties

Shield, Lance and Hook: Polypropylene

Gun Body & Lever and Connectors: Polypropylene

Spring: Stainless Steel

Tubing: PVC

Retractable coil: Nylon blend

'o' rings: Viton

Cup Capacity: 30ml

Dimensions: Applicator = 17.5 x 38 cm bag

Extension Kit = 17.5 x 50 cm bag

Net weight: Applicator = 82 g

Extension Kit = 435 g

Background

Teat dipping (with either foam or liquid dip) provides better teat coverage than spraying, whilst using less chemical. However, both liquid dips and foam are highly effective at reducing bacterial counts as part of a good udder hygiene/health protocol. However, it has the disadvantage of being a slower and more laborious process, slowing down the milking process and adding to labour costs.

The Ambic EasiDipper™ has been specifically designed to combine the accuracy of teat dipping with the speed of teat spraying.

Product Technical Data Sheet

Features

- Suitable for use with both Standard and Viton EasiDipper™ systems.
- Minimises labour compared to manual filling of foaming dip cups.
- Handy bracket enables applicator to be hung up, reducing wear and tear on the applicator and coil.
- Extension kits enable expansion of the number of drop coils on the EasiDipper™ system.
- Applies just the right amount of chemical to the teat requiring a single towel wipe to remove chemicals.
- Button gun applicator is also available.

- The following parts (in addition to those shown above) can be ordered separately as product codes:
 - AED/4004 – EasiDipper™ Applicator – Lever Gun.
 - AED/4006 – EasiDipper™ Applicator Top.
 - AED/4020 – EasiDipper™ Dragline Adaptor Kit.
 - ATS/405 – Trigger Valve Service Kit.
 - ATS/406 – Retractable Coil.
 - ATS/407 – T Connector with Nuts.
 - ATS/408 – Straight Connectors with Nuts (pack of 2).
 - ATS/409 – Connector Nuts (pack of 6).
 - ATS/410 – 6m Flexible Delivery line tubing (included in complete extension kits).
 - ATS/411 – Cable Ties (Pack of 10).
 - ATS/438 – Repair Kit for Ambic Drop Coil.
 - ATS/461 – Straight Connector.
 - AJS/2055 – AmbiSpanner™.
