

Foam'n'Dip™

FND/001 Foam'n'Dip™ System Complete - Electric Version

System includes:

- Electric Power Unit
- 3 Foam Applicators with Drop Coil
- 3 Dip Applicators with Drop Coil
- Restrictors for Normal and Barrier Dips
- 30m LDPE Tubing
- 6 Extra Bottles with Caps
- Rawlplugs and Screws

FND/300 Foam'n'Dip™ System Complete - Pneumatic Version

System includes:

- Pneumatic Power Unit
- 3 Foam Applicators with Drop Coil
- 3 Dip Applicators with Drop Coil
- Restrictors for Normal and Barrier Dips
- 30m LDPE Tubing
- 6 Extra Bottles with Caps
- Rawlplugs and Screws

FND/002 Foam'n'Dip™ Power Unit - Electric Version

FND/302 Foam'n'Dip™ Power Unit - Pneumatic Version

FND/003 Foam'n'Dip™ Foam Applicator

FND/004 Foam'n'Dip™ Dip Applicator

FND/006 Foam'n'Dip™ Foam Applicator with Gun

FND/007 Foam'n'Dip™ Dip Applicator with Gun

FND/014 Foam'n'Dip™ Extension Kit with Foam and Dip Applicators

FND/014F Foam'n'Dip™ Extension Kit with Foam Applicator

FND/014D Foam'n'Dip™ Extension Kit with Dip Applicator

FND/406-BLK Foam'n'Dip™ Coil - Black

FND/406-R Foam'n'Dip™ Coil - Red

APF/016 Foam'n'Dip™ Pressure Switch Kit

Ambic Equipment is a world leading specialist in the development and production of a comprehensive range of dairy hygiene and livestock health management products which are sold around the world. In particular, Ambic is the world's leading supplier of mastitis prevention and detection equipment. It's leading market position has been built up as a result of over thirty years of dedication to research and development, innovative product design, quality manufacture and superb customer service.

Building on it's foundations of developing and producing simple, cost effective and reliable devices that help the farmer improve his management of livestock health, Foam'n'Dip™ is a simple, economical and yet highly effective dual purpose teat sanitisation system which generates low pressure compressed air to automate both pre- and post- teat sanitisation processes.

- Integrated pre- and post- sanitisation system
- Dual purpose power unit
- Foam applicator - ideal for pre-milking treatments
- Dip applicator - ideal for post-milking treatments
- Expandable to fit even the largest milking parlours
- Easy to install with push-in fittings
- Low pressure system for economy and safety
- Designed and manufactured in England

AMBIC®

FoamApplicator

The Foam applicators are based on Ambic's renowned PowerFoamer™ technology which is used to generate foam of optimum consistency for effective pre-milking teat preparation.

- Simply squeeze the trigger for instant foam production
- Consistent foam density to ensure complete teat coverage
- Applicator capacity sufficient to treat +/- 100 cows
- Expandable to suit even the largest milking parlours

AMBIC®

ElectricPower Unit

- Operates from a 13A socket
- Includes 30m LDPE tubing and fittings for ease of installation

PneumaticPower Unit

- For farms equipped with a compressor this alternative pneumatic version is available
- Integral air regulator to regulate air pressure

AMBIC®

DipApplicator

The Dip applicators are adjustable to dispense both conventional teat dips and thicker, barrier type teat dips at the appropriate rate for easy and effective post-milking teat sanitisation by using easy-fit restrictors.

- Simply squeeze the trigger for instant supply of teat dip, including thick barrier dips
- Adjustable to set flow rate in relation to viscosity of teat dip chemical
- Quicker and less laborious than manual dipping
